Quantum Week
One week, three events | Edinburgh | 15th-19th April 2024

Quantum Software Lab

15th April
A day of challenge-led workshops in quantum computing hardware, software, and applications bringing together industry leaders and academic experts.

QCTiP
16th-18th April
QCTiP fosters discussion between theorists and practitioners of quantum computing. The workshop includes keynote speakers, invited and contributed talks from academia and industry.

19th April
QSL will celebrate its 1st birthday in April 2024, following a year of identifying end-user challenges in the adoption of quantum computing and investigating quantum advantage.
